Declaration of turnover

for the fiscal year 2023

Category & Post Selection – Page 2 of 2

The assessment basis for the contribution of ordinary members and special members shall be determined from the various categories in each of the following ways.

For our client we choose the following category for the tax base.

☐ **Category A: Service providers of the digital economy**

Service providers of the digital economy report gross income to calculate the membership fee. Gross income includes all income and commissions generated in Germany by means of customer-specific consulting and implementation services for all areas of service according to the definition of the BVDW for the digital economy (no hosting or access sales). Included in the gross income are only net sales (without VAT) in the area of solutions for all major interactive platforms:

- Consultation
- Design
- Implementation (design and programming)
- License revenues
- Commissions (CPX models)
- Other gross income from media representation (media, without VAT, minus discounts and bonuses)

☐ **Category B: Buyers for services of the digital economy/advertising industry**

Buyers for services of the digital economy/advertising industry report the order volumes or the budget to calculate the membership fee.

☐ **Category C: Digital economy provider**

Providers from category C report total sales (excluding sales tax) for contribution calculation.

General and legal information on the BVDW sales report:

To calculate the BVDW membership fee for 2025, we require a report of sales from the 2023 financial year (or from the financial year that ended in 2023) in accordance with the information from the balance sheet or P&L (see [committee regulations](#), valid from January 1, 2023, Section 2, Paragraph 4).

Like all member data, this transmitted data is subject to the strictest confidentiality and is used exclusively for the purpose of determining the membership fee.

You can find further information in our [committee regulations](#) and the BVDW [statutes](#). Information about the calculated BVDW membership fees can be obtained from our [contribution calculator](#).
